it's higher than that!

Not bored.
tired.
anxious
for something we don't see.
i could love you.
doesn't matter if you me.
the truth..
i want you 1 way,
no other.
you want me.
don't care for how long
i just know what you want 4 now.
when i lie
trust me to say so.
when i'm angry or scared
or trying to think on nothing.
trust me to say nothing.
love is but a politic
and emotion.
no wrong there.
but it doesn't say what the "right" thing
really is.
this is truth.
i still hate
and i still live with fear.
and yes,
i know "not to kill myself for feeling these things".
that's not the p0int at all.
i know my sin,
and it is great
as well as consuming.
i wanted that to change with u
i wanted 4 us to somehow be free,
somehow go to the place were there
R no c0nstricti0ns
and every fear is a weak 1
where every soul is a free 1
and everybody knows
the day will come where we
will all be removed from our bodies.
that's what i wanted.
i wanted some fun
'cause we could laugh.
why wait 'till death was on our backs.
